## PLEXIGLAS®

### Edge-lit sheet for panel light

#### Market segment

Lighting Technologies

#### Location

Sparkasse Neuöttingen, Germany

#### Product

PLEXIGLAS® XT Clear 0A000

#### Selection criteria

- high light transmission,
- good light guiding properties,
- longevity

#### Fabricator

Fa. KOBEK, Traunreut, 2011

#### Description of the application

LED light is fed into the sheet via the edges and emitted uniformly across the sheet surface towards the viewer. For this purpose, the PLEXIGLAS® sheets are surface-printed with fine dots that ensure uniform illumination of the entire luminous object. The new panel lights are highly energy-efficient, durable and require very shallow recess depths.
